BACKGROUND

APCC was established in Abu Dhabi in September 1972, since its inception, APCC has achieved excellent results and met the client's expectations in the business activities of the Company. The company has grown up over the years and established various branches in other Emirates (Dubai, Sharjah and Ras Al Khaimah) within the UAE and Overseas (Oman, Qatar, Kuwait, KSA, Egypt and Lebanon).

All this has become possible due to the highly imaginative vision of its Management Team. APCC is therefore able to offer economical solutions to clients for various projects.

To keep abreast of technological advancement APCC, like other divisions of the group, has implemented Quality Control / Quality Assurance manuals and procedures commensurate with requirements of ISO 9001:2015, ISO 14001:2015 and OHSAS 45001:2018

APCC is the outcome of the extensive experience of its CEO, Managing Director, Directors, Engineering staff and its vast equipment resources as can be seen from the equipment list.

This division employs the latest technology in piling, enabling, marine and soil improvement, keeping abreast of the latest developments in Soil Mechanics, the lightning speed it can produce pile designs utilizing its knowledge of Soil Mechanics to each case individually and then feeding the information to the computer to achieve the final design and most important of all. We have easy access to such authorities in foundation technology such as the Imperial College of Science and Technology in London, the Ponts et Chaussees Soil Mechanics and Foundation Division of the Labratoire Centrale of Paris.
